PROFESSIONAL SUMMARY

Detail-oriented Data Engineer with 5 years of experience in designing and implementing data pipelines. Proficient in big data technologies and cloud platforms, driving data-driven decision-making and optimizing data workflows.

WORK EXPERIENCE

Data Engineer

Seaside Innovations

Dec / 2020-Ongoing
Santa Monica, CA

- 1. Designed and implemented scalable data pipelines using Apache Hadoop and Spark, enhancing data processing efficiency.
- 2. Developed ETL processes to integrate data from various sources, ensuring data quality and consistency.
- 3. Utilized AWS services for data storage and processing, optimizing cloud resource usage and cost.
- 4. Collaborated with data scientists to create data models that support advanced analytics and machine learning initiatives.
- 5. Automated data workflows using Apache Airflow, reducing manual intervention and errors.
- 6. Conducted performance tuning of SQL queries, improving data retrieval times by 20%.
- 7. Provided technical guidance and training to junior data engineers, fostering a collaborative team environment.

Data Engineer

Lakeside Apparel Co

Dec / 2019-Dec / 2020
Chicago, IL

- 1. Analyzed large datasets to identify trends and insights, supporting strategic business decisions.
- 2. Worked with cross-functional teams to define data requirements and ensure alignment with business objectives.
- 3. Implemented data governance practices to maintain data integrity and compliance.
- 4. Developed dashboards and reports using Tableau, providing stakeholders with actionable insights.
- 5. Participated in agile development processes, contributing to sprint planning and retrospectives.

EDUCATION

Bachelor of Science in Computer Science

University of California, Berkeley

Dec / 2018-Dec / 2019
Phoenix, AZ

Focused on data structures, algorithms, and database management systems.

SKILLS

ACHIEVEMENTS

- ★ Optimized ETL processes, reducing data processing time by 30%.
- ★ Developed a data pipeline that improved data accuracy by 25%.
