Here's what you need to know about me

I am an experienced software engineer that gets the job done. My area of expertise is full stack web development from A-Z. Whether it's backend, frontend, cloud services, databases, infra, etc. I am seeking a position where I can always learn and grow, yet, be surrounded by an experienced team and a friendly culture. And obviously.. coffee. To view my portfolio: www.mohamadghali.com
