

AVA DAVIS

AWS Devops Engineer

✉ support@qwikresume.com ☎ (123) 456 7899 📍 Los Angeles 🌐 www.qwikresume.com

PROFESSIONAL SUMMARY

Innovative AWS DevOps Engineer with 7 years of hands-on experience in streamlining cloud operations and enhancing CI/CD frameworks. Skilled in deploying AWS services like EC2, S3, and CloudFormation to ensure high availability and performance. Eager to leverage technical expertise to drive automation and foster collaboration in cross-functional teams.

WORK EXPERIENCE

Jr. AWS Devops Engineer Jan / 2020-Ongoing
Pineapple Enterprises 📍 Santa Monica, CA

- 1. Managed network security using load balancers, auto-scaling, and security groups to optimize performance.
- 2. Enhanced existing automation scripts developed in Shell, Perl, Ruby, and Python for improved efficiency.
- 3. Utilized Puppet and Chef for configuration management across diverse environments.
- 4. Wrote Puppet manifests in Ruby for effective deployment and monitoring of applications.
- 5. Maintained multiple testing and production environments in AWS, monitoring key metrics for optimal performance.
- 6. Configured and managed VPC networking for secure and efficient AWS deployments.
- 7. Streamlined release processes by merging branches and resolving conflicts in Git and Subversion.

AWS Devops Engineer Jan / 2018-Jan / 2020
Summit Peak Industries 📍 Denver, CO

- 1. Developed and refined software release management processes to enhance project delivery.
- 2. Provided day-to-day support for GIT/Bitbucket/TFS across various projects, ensuring smooth operations.
- 3. Facilitated the migration of physical Linux/Windows servers to AWS cloud, improving scalability.
- 4. Built and configured AWS services including EC2, RDS, and S3, ensuring robust cloud infrastructure.
- 5. Automated backup processes for Linux systems, ensuring data integrity in S3.

EDUCATION

Bachelor of Science in Computer Science Jan / 2016 - Jan / 2018
University of California 📍 Denver, CO

Focused on software development and cloud computing technologies.
