SKILLS

JavaServer Pages

HTML5

Java Persistence API

EclipseLink ORM

Apache ZooKeeper

INTERESTS

📖 Birdwatching 🧳 Traveling

🏠 Sports Coaching 🏆 Knitting

STRENGTHS

🔗 Pragmatism 🍃 Sensitivity

💖 Sincerity 📌 Stability

LANGUAGES

English

Russian

Dutch

ACHIEVEMENTS

🌟 Designed and implemented a robust logging system that enhanced monitoring capabilities and reduced incident response time by 30%.

🌟 Automated deployment processes using CI/CD pipelines, reducing release times from days to hours.

PROFESSIONAL SUMMARY

Accomplished Senior Software Engineer with 7 years of expertise in developing high-performance applications and scalable solutions. Proficient in the complete software development lifecycle, I excel in driving innovation and enhancing system performance. Eager to leverage my technical skills and collaborative mindset to deliver impactful software solutions that meet complex business challenges.

WORK EXPERIENCE

Senior Software Engineer

📅 Jun / 2021-Ongoing

Pineapple Enterprises

📍 Santa Monica, CA

1. Maintained a high-capacity ad server processing over 15 billion requests daily with 10ms latency and zero downtime, generating \$300M in revenue.
2. Led requirements gathering and development for critical ad-serving features, enhancing system capabilities.
3. Revamped ad-serving request architecture, decreasing integration time with external systems from weeks to days.
4. Successfully integrated and tested multiple advertising platforms, enhancing revenue opportunities.
5. Developed a Spring MVC administrative interface for the ad server, improving operational efficiency.
6. Automated release cycles using Bamboo, reducing time to release to a few hours and saving valuable resources.
7. Designed a robust message delivery system using AWS S3 and Zookeeper to deliver campaign updates quickly and reliably.

Software Engineer

📅 Jun / 2018-Jun / 2021

Summit Peak Industries

📍 Denver, CO

1. Extracted and optimized string literals from JavaScript, Oracle PL/SQL, C#, and ASP.NET code to enhance application performance.
2. Adapted an external .NET translation tool for seamless integration with ASP.NET web applications.
3. Contributed to the creation of new web services and modifications to existing Windows applications to improve functionality.
4. Developed and maintained JavaScript and PL/SQL stored procedures within a large ASP.NET web application.
5. Utilized Toad, Visual Studio, Chrome Dev Tools, and Fiddler to support new and existing C# applications.
6. Designed and developed SSIS packages to extract, transform, and load data from multiple sources into a data warehouse.

EDUCATION

Bachelor of Science in Computer Science

📅 Jun / 2015-Jun / 2018

University of California, Berkeley

📍 Santa Monica, CA

Focused on software engineering principles and practices, with coursework in algorithms, data structures, and system design.
